ASIR · DAW — IPE I + PROFESSIONAL ENGLISH

Elevator Pitch

Sell your tech profile in 60–90 seconds

60–90 seconds | In English | One real tech job

01 · THE BASICS

What is an elevator pitch?

A short, clear and persuasive talk about **who you are**, **what you can do** and **what you want**.

Imagine you meet a recruiter in a lift. You have one ride to make them remember you and want to know more.

60–90 s

long: one lift ride

130–200

words, spoken naturally

1 goal

get a next step: a call, an interview, a placement

01 · THE BASICS

Watch and take notes

VIDEO 1 · THE IDEA · SPANISH

Elevator pitch. Tienes 20 segundos

eduCaixa • Antonella Broglia • 3 min

- Note down three tips she gives.
- Which tip is the most useful for you?
- Explain it to a partner in English.

01 · THE BASICS

Your mission

Present yourself in English to a recruiter from a tech company: in 60–90 seconds, for one real job, with one real example.

01
Explore
Job offers and key vocabulary

02
Design
Phrases to present yourself and your skills

03
Prepare
Grammar, pronunciation and fluency

04
Rehearse
Feedback and question practice

05
Present
Final pitch in front of the class

01 · THE BASICS

Five parts, ninety seconds

10–15 s

1. Introduce yourself

Who are you? What are you studying?

10–15 s

2. Your goal

Which role or area interests you?

20–25 s

3. Your skills

What knowledge and skills can you offer the company?

15–20 s

4. Your proof

Which example shows your ability or motivation?

5–10 s

5. Close

What next step do you want?

Tip: the skills part is the longest, but the proof is what people remember. One real example beats five adjectives.

02 · VOCABULARY

Words that sell your profile

Job titles • technical skills for ASIR and DAW • soft skills • action verbs

02 · VOCABULARY

Pick your target job

ASIR • networks and systems

- IT support technician / help desk technician
- Junior systems administrator
- Network technician
- Junior cybersecurity analyst (SOC)
- Cloud support associate

</> DAW • web development

- Junior front-end developer
- Junior back-end developer
- Full-stack developer (trainee)
- Web developer intern
- QA tester / software tester

Entry-level words: junior • trainee • intern (in a work placement) • entry-level position • internship = *prácticas*

Technical skills: networks and systems

Verb	+ what you do
configure	routers, switches, VLANs and firewalls
set up	servers, user accounts and a Windows domain
manage	Linux and Windows servers, virtual machines
troubleshoot	network and hardware issues
monitor	systems, services and network traffic
back up / restore	data and system images
secure	systems and networks against attacks
automate	tasks with scripts (Bash, PowerShell)

Technical skills: web development

Verb	+ what you do
build	responsive websites and web apps
write	clean code in HTML, CSS and JavaScript
design	user interfaces and databases
develop	REST APIs and back-end services
use	version control with Git and GitHub
debug / test	code and web applications
deploy	apps to a server or the cloud
work with	frameworks and libraries (React, Laravel…)

02 · VOCABULARY

Soft skills: show, don’t tell

I’m…

reliable · methodical · proactive · detail-oriented · adaptable · curious · patient · a fast learner · a team player

I’m good at…

problem-solving · teamwork · communication · time management · explaining technical things

WEAK: JUST TELLING

“I’m a hard worker and a team player.”

STRONG: SHOWING

“I’m a team player: in our last project I organised the tasks on GitHub so the four of us could work in parallel.”

02 · VOCABULARY

Action verbs for your proof

set up → set up	**build** → built	**lead** → led	**write** → wrote
configure → -d	**design** → -ed	**fix** → -ed	**solve** → -d
migrate → -d	**automate** → -d	**deploy** → -ed	**improve** → -d

FORMULA: WHEN + ACTION + RESULT

"Last year, I set up a home lab with two virtual servers, so now I can test new services safely."

03 · LANGUAGE

Phrases and grammar for your pitch

Useful phrases • grammar toolkit • common mistakes • two model pitches

Useful phrases to start

1 • INTRODUCE YOURSELF

- Hi, I'm … Nice to meet you.
- I'm studying Network and Computer Systems Administration (ASIR).
- I'm studying Web Application Development (DAW).

2 • YOUR GOAL

- I'm really interested in …
- I'd like to work as a …
- My goal is to start my career in …
- I'm especially passionate about …

3 • YOUR SKILLS

- I'm good at + *-ing* …
- I have experience with …
- I'm currently learning …
- I know how to …
- I'm confident using …

Useful phrases to finish

4 • YOUR PROOF

- For example, last term I …
- In a class project, I …
- One thing I’m proud of is …
- As a result, …

5 • CLOSE

- I’m looking for an internship where I can …
- Could I send you my CV?
- Would you like to see my portfolio?
- Thank you for your time.

LINK YOUR IDEAS

First of all • Also • On top of that • For example • That’s why • As a result • Finally

03 · LANGUAGE

Grammar toolkit

Present simple

Facts about you

“I study DAW. I enjoy solving problems.”

Present continuous

What you are doing now

“I’m currently learning Docker.”

Present perfect

Experience, no exact time

“I’ve built three websites.”

Past simple

One specific example

“Last year I set up a home lab.”

would like to + verb

Your goal, politely

“I’d like to work in cybersecurity.”

good at / interested in + -ing

Skills and interests

“I’m interested in developing APIs.”

Common mistakes to avoid

Avoid	Say instead	Why
I have 19 years.	I'm 19.	age = be
I study the career of ASIR.	I'm doing a VET course in…	career ≠ carrera
I want to do practices.	I'm looking for an internship.	prácticas
Actually, I'm learning Python.	Currently, I'm learning Python.	actually = en realidad
I'm good in networks.	I'm good at networking.	good at + -ing
experience configurating	experience configuring	configure
I'm interesting in web design.	I'm interested in web design.	-ed = you feel it

Model pitch: ASIR

1 INTRO	Hi, I'm Alex. I'm studying Network and Computer Systems Administration at Campus Digital FP in Zaragoza.
2 GOAL	I'm really interested in systems and networks, and I'd like to work as a junior systems technician.
3 SKILLS	I'm learning to configure networks, manage Linux and Windows servers and troubleshoot incidents. I'm methodical and reliable, and I enjoy analysing problems.
4 PROOF	For example, in a class project I set up a small office network with a firewall and automatic backups, and I documented every step for my team.
5 CLOSE	I'm looking for a work placement in a support or systems team where I can keep learning. Could I send you my CV?

Model pitch: DAW

1 INTRO	Hi, I'm Sara. I'm studying Web Application Development at Campus Digital FP in Zaragoza.
2 GOAL	I love building websites that people enjoy using, and I'd like to work as a junior front-end developer.
3 SKILLS	I write HTML, CSS and JavaScript, I use Git every day and I'm currently learning to build REST APIs. I'm a fast learner and a good team player.
4 PROOF	Last term, my team and I built a booking web app for a local gym. I designed the responsive interface and fixed the bugs we found during testing.
5 CLOSE	I'm looking for an internship where I can grow as a developer. Would you like to see my portfolio on GitHub?

04 · DELIVERY

Sound confident, look confident

Your voice: word stress

deVELoper · adMINistrator · seCURity · techNOLogy · engiNEER · INfrastructure · reLIable

Tricky words

- **cache** sounds like “cash”
- **suite** sounds like “sweet”
- **router**: UK “rooter”, US “rowter”

Your body

- Look at your listener, not at the floor.
- Stand straight, hands visible.
- Smile at the start and at the end.
- Pause between the five parts.
- Use a cue card with keywords. Don’t read.

04 · DELIVERY

After the pitch: the recruiter asks

- Why are you interested in this role?
- What is your strongest technical skill?
- Tell me about a problem you solved.
- What are you learning at the moment?
- How do you work in a team?
- Where do you see yourself in two years?

BUY TIME AND CLARIFY

- That’s a good question. Let me think…
- Sorry, could you repeat that, please?
- Do you mean…?
- What I mean is…
- To give you an example…

05 · DO IT

Your roadmap

1. Explore

Find one real job offer in English. Highlight ten key words.

2. Design

Write a first draft of your script with the five parts.

3. Prepare

Adapt it to English. Check it with your teacher. Mark stress and pauses.

4. Rehearse

Pitch in small groups. Record yourself. Write version 2.

5. Present

Pitch to a “recruiter” and answer one or two questions.

Where to find offers: LinkedIn Jobs • Indeed • EURES (the EU job portal, with offers in English)

05 · DO IT

How your pitch is assessed

IPE I • YOUR MESSAGE

- Self-knowledge: strengths and skills
- Fit: your profile matches the job
- Value: what you offer, with examples
- Structure and timing
- Professional attitude and body language

0–2 points each • total 10

ENGLISH • YOUR LANGUAGE

- A clear, well-structured presentation
- Correct technical vocabulary
- Fluency, pronunciation, linked ideas
- Right register for a recruiter
- Good answers to interview questions

Full rubric shared in class

05 · DO IT

Before you step into the lift

- 60–90 seconds, timed
- One real job, named
- One concrete example in the past
- Eye contact, no reading
- All five parts, in order
- Five or more technical words
- A clear next step at the end
- Ready for one or two questions

Your turn. Good luck!
